

Supporting your child with Maths

Below are a range of websites and apps which can support children with their maths. Click on the logo to go straight to the website.

 Top tips for parents 1. Be positive about maths. Try not to say things like "I can't do maths" or "I hated maths at school" – your child may start to think like that themselves. 2. Point out the maths in everyday life. Include your child in activities involving numbers and measuring, such as shopping, cooking and travelling. 3. Praise your child for effort rather than for being "clever". This shows them that by working hard, they can always improve.	 CBBC Number blocks – a great resource for Reception/EYFS. There are many Number blocks resources on YouTube too.
 White Rose Hub - 1 minute maths app for KS1	 5 Questions a day for KS2 – answers provided!
 Your child has a log in to be able to access this website, which we use in school to help the children develop their rapid recall of multiplication and division facts up to 12 x 12.
